

SWELL-FORM GRAPHICS PRO

The SWELL-FORM GRAPHICS PRO is designed exclusively for producing tactile diagrams onto SWELL-TOUCH paper. The SWELL-FORM GRAPHICS PRO can process up to 1,000 sheets of SWELL-TOUCH paper per hour. It is capable of processing all paper sizes currently available. It features a lamp that heats the entire surface of the paper uniformly which gives consistent results sheet after sheet.

Key Features:

- Built from high quality materials
- Capable of processing all available paper sizes
- Can process up to 1,000 sheets per hour
- Sensitive speed control to ensure optimum results
- Consistent results sheet after sheet
- Conveyor belt feed system (mean no roller marks)
- Heat and odor extraction system
